## Alternate sources of energy and energy conservation methods

### Solar Street Light Systems

AVCE has installed 10 solar street lighting systems with capacity of 90 Watts Photo Voltaic Panels. The solar street lights are fitted independently on the entrance and the need for underground cabling is eliminated. Photovoltaic panel lights offer many advantages including energy efficiency, low maintenance, easy installation, cost effectiveness, versatility, environment friendliness and safety.

## Biogas plant:

Biogas is a renewable fuel produced by the breakdown of organic matter such as food scraps and animal waste. It can be used in a variety of ways including as vehicle fuel and for heating and electricity generation. In our college, the biogas plant is installed in the Lady's hostel. The food waste generated in the hostel is collected every day and fed into the biogas plant. The produced biogas is utilized for cooking purpose in the hostel which can save the cost of LPG cylinder. The capacity of the Plant is 1 m<sup>3</sup>.

## Gobar gas plant:

AVCE has a gobar gas plant installed in the Lady's hostel. Biogas is produced from cattle dung in a Gobar gas plant through a process called digestion. The produced biogas is utilized for cooking purpose in the hostel which can save the cost of LPG cylinder. The capacity of the Plant is 3m<sup>3</sup>. The use of Biogas and Gobar Gas has reduced the cylinder consumption of 20 numbers per month to 17 numbers in the hostel.

## LED BULBS

In AVCE LED bulbs and tubes are installed in class rooms and laboratories to reduce power consumption. These bulbs are upto 80-85% energy efficient and last 3-5 times longer than normal electric bulbs. They also uplift the aesthetic quotient of the space. CFL is also used in some laboratories.

## GREEN CAMPUS INITIATIVES

The institutional initiatives for greening the campus are as follows:

- Restricted entry of automobiles
- Pedestrian Friendly pathways
- Ban on use of Plastic
- Landscaping with trees and plants
- Paperless office
- Tree Plantation

A Green Campus is a place where environmental friendly practices and education combine to promote sustainable and eco-friendly practices in the campus. The green campus concept offers an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to environmental, social and economic needs of the mankind.

Greening the campus is all about sweeping away wasteful inefficiencies and using conventional sources of energies for its daily power needs, correct disposal handling, purchase of environment friendly supplies and effective recycling program. AVCE has worked out the time bound strategies to implement green campus initiatives. These strategies need to be incorporated into the institutional planning and budgeting processes with the aim of developing a clean and green campus.

### Restricted entry of vehicles

- Vehicles are not allowed inside the campus. This initiative considerably limits emissions.
- The college encourages the employees and students to frequently use public transport, bicycles, etc. to limit the emissions.
- Separate two wheeler and car parking are available separately for staff and students in front of the college.

## Seperate parking for students in front of college

### Pedestrian Friendly pathways

- AVCE campus follows the Pedestrian-friendly pathways in all the major roads..
- Vehicle parking space is provided at the main entrance of the college campus.
- As the campus is vehicle free with some exceptions, students and staff experience comfort walking through the pedestrian friendly pathways
- Internal roads are lined with trees and solar lights and they are properly maintained by the campus maintenance committee.

### Pedestrian friendly pathways near the Main gate

## Ban on usage of plastics

- The college continuously committed to work towards plastic-free campus.
- In the AVCE campus there is complete ban on single-use plastics in class rooms, labs, canteens in the institution's premises and hostels.

Posters showing Ban on Plastic

## Landscaping with trees and plants

- Landscaping of the college is worth seeing and reflects aesthetic sense.
- As per the green practices in the campus AVCE is planting more trees within and outside the campus.
- AVCE has a canopy of trees and plants to make the environment pollution free to safeguard the health of all the inmates.
- The lawns and the trees provide shade and beautiful ambience.
- Utmost care is taken to develop and maintain green landscaping by trained gardeners and supervisor.

Medicinal plants and trees have been planted to clean the atmosphere.

## Paperless Office

- The institute authorities are taking initiatives to make the campus paperless. Internal communication in the campus, through e-mail or e-messages, is driving towards paperless office.
- Electronic gadgets are preferred to transfer and store the official data and information.
- Library and examination sections are equipped with efficient software.
- The Learning Management System is used for academic activity in the campus.

## Tree Plantation in the Campus

Every year NSS volunteers do tree plantation in college campus. People from governmental organizations are invited for tree plantation drive. This motivates the students to grow trees and plants in their home also. As a result of this drives the college has a canopy of trees which is a home for birds as well.

## Disabled-friendly, barrier free environment

The Institution has disabled-friendly, barrier free environment

**Built environment with ramps for easy access**

**Disabled-friendly washrooms**

**Reception counter and personal assistance**

According to the persons with disabilities act 2016, discrimination against disabilities is strictly prohibited. AVCE intend to provide comprehensive and inclusive teaching and learning environment to students and any employees. Aiming to this, AVCE made ramps in each building. All the Academic Buildings, Offices, Hostels, Library, Health Centre, Student Activity Centre, Canteens and Sports Boards etc. are constructed complying the PWD/ CPWD norms.

## GREEN POLICY

### GREEN ENVIRONMENT POLICY OF THE COLLEGE

Anna Vailankanni college of engineering, Pottalkulam is a quality conscious college. It protects its own environment by maintaining it green with the help of about 950 large and many smaller plants in campus. Our staff and students always try to keep the campus pollution free in all possible ways.

The management administration and the students of the college look after the environment carefully. Every year during rainy season we perform tree plantation and carefully look after the planted trees. As a result, now we have about 950 trees in our campus, besides we are having eco-friendly units like rain-water-harvesting units, etc. We have our own Green Environmental policy that includes.

- To comply with all requisite environmental legislations and government guidelines, wherever applicable.
- To ensure that there is optimum utilization of resources and waste generation is minimized.
- To integrate environmental concerns in decision-making, e.g. teaching-learning process, communications, etc.
- To implement an environment management system.
- To strive towards continual reduction in ecological foot print of the college as it grows.
- Education and training of students, staff and society in environmental issues and the environmental effects of their activities.
- Monitoring progress and reviewing environmental performance against targets and objectives on a regular basis.
- To maintain the campus pollution-free by all possible ways like maximal use of green-energy like solar energy, natural light, etc.

The Green Audit Committee will act as per the environmental policy and shoulder the responsibility for maintaining and protecting the environment in and around the college with the help of students, staff and society. It will work in various fields like-

- Waste Management
- Soil Management
- Water Management
- E-waste management
- Bio-diversity
- Energy use and conservation
- Eco-friendly techniques
- Noise Pollution
- Air Pollution
- Paper less & Plastic less operating procedure
- Green area management and clean campus
- Fire safety

## Waste Management:

### E-waste

- E-waste materials are kept in a separate room
- All the departments are instructed to submit the information of the damaged or outdated computers, monitors and other e-equipment.
- These e-equipments are sold out to vendors.

### Soil/Water Pollution Management

- Proper drainage facility available in the campus. Separate canals built for collecting the liquid wastes.
- Monitoring system for consumption of water can be installed at every node.
- Rain water harvesting mechanism has to be implemented at large scale.

## Circular on use of Pedestrian Friendly Pathways inside the campus

### CIRCULAR

"Use Pedestrian Friendly Pathways in the campus"

All staffs and students are hereby strictly informed to utilize pedestrian friendly pathways to move inside the campus. Pathways are lined with trees and solar lights to have comfort walk for staffs and students. And also avoid trampling on the grass or loitering on to the roads. This is to maintain the green cover of the campus and to ensure safety.
