MEMORANDUM OF  
UNDERSTANDING (MoU)

BETWEEN

State Institute of Rural Development & Panchayat Raj - Tamil Nadu, Chennai

and

Annai Vailankanni College of Engineering, AVK Nagar, Pottalkulam,  
Kanyakumari Dist - 629401

16<sup>th</sup> December 2023,

This Memorandum of 'Understanding (MoU) is made and executed at Kanyakumari on 16<sup>th</sup> December 2023 between State Institute of Rural Development (here in after called SIRD&PR), as statutory body of Government of Tamil Nadu, having its registered office at Maraimalai Nagar, Chennai (which expression shall, where the context so admits, be deemed to include its executors, administrators and assigns) be the First Party.

and

Annai Vailankanni College of Engineering an Educational Institution run by Annai Vailankanni Educational and Charitable Trust which is registered under Indian Charitable Trust Act of Government of India established under the self finance scheme offering technical courses and its office situated at Kanyakumari District, Tamilnadu shall be the Second Party or the Participating Institution (PI).

Both Parties have reached the following intent to collaborate as per below described articles of this MOU.

**PURPOSE of MoU:**

The MoU is aimed at collaborating on the Unnat Bharat Abhiyan (UBA) program implemented by the First party. The second party (PI) will work as a partner in this development intervention to achieve the goals of locally achieving the sustainable development (LSDG).

Now therefore the parties hereto have agreed to enter into a memorandum of understanding considering the long term benefits of sharing the knowledge and

resources of the PIs and establish a collaboration, by undertaking joint responsibilities and activities in their respective field of excellence, resources, knowledge and expertise.

## AREAS OF COLLABORATION

The parties hereby agree to work collaboratively on following points for the effective and efficient engagement by fulfilling the purpose of this MoU. The mutually agreed activities by and between the parties are as under:

- A. The second party (PI) will mobilise the students as part of its academic social responsibility (ASR) to engage with rural communities and PR institutions for the UBA facilitation. This will be done by creating suitable groups of students from different disciplines of studies to fit into the thematic areas. It will be ideal if students from the same panchayat can be included in the group. These student groups shall be guided by the academic staff to carry out the grass-root level interactions and development interventions. These groups can be also suitably named for identification and visibility of their rural development engagements (For eg. GP Development Corps).
- B. The second party (PI) will leverage its internal resources from different departments viz knowledge of sustainable development by establishing a multidisciplinary group (involving different departments and faculties for different action domains) within the institution to engage in the rural development activities by identifying the panchayats and create an enabling eco-system for the last mile delivery of development. This eco-system shall be hybrid in nature that it will enable to create values by leveraging the low/no cost activities among the communities. It is expected that at least 10 no/low cost activities are identified per theme and included in the panchayat plan every year and implement it to establish the momentum of self development.
- C. The second party (PI) will mobilise the community in identified panchayats by the help of its team of faculties and students to sensitise the scope and options of sustainable development and capacitate them in achieving the development goals.
- D. The second party (PI) will prepare Gram Panchayat Development Plans (GPDP) of the identified village panchayats involving the panchayat administration and the local communities. This will involve the assessment of development potential of the panchayat, actual level of development currently and the gaps to be filled. It further envisages to prepare a detailed document as per the prescribed format covering the chapters in detail and coordinate for its approval from gram sabha and subsequently to handhold in implementing the approved plan.

PROFESSOR,  
ANNA VARADARAJAN COLLEGE OF TECHNOLOGY,  
POTTALKILAI,  
AZHAGAPPAPUR, N - 622 401  
KANYAKUMARI DIST.

E. The second party (PI) will associate with the identified panchayats in implementing the GPDP by imparting necessary skills, capacities and establish sustainable linkages in achieving the goals in the 9 themes. The nine intervention themes for the second party (PI) to work in a systematic and prioritised manner to bring in sustainable development at local level are

1. Poverty free/enhanced livelihood
2. Healthy Village
3. Child friendly village
4. Water sufficient village
5. Clean and Green village
6. Self sufficient infrastructure
7. Socially secured village
8. Village with good governance and
9. Engendered development

F. The second party (PI) will document and show case the development outcomes enabled by their planning and handholding of its implementation in the respective panchayats by using appropriate media and technologies.

G. The first party will pay the second party (PI) an amount of Rs.20,000 (Rupees Twenty Thousand Only) for a year per village panchayat. 50 percent of this amount will be released after the PI identifies the village panchayats to work with and submit a preliminary report of its strength and capacities in carrying out the said functions in the selected locations and getting the concurrence of the village panchayats to collaborate in the program. The second instalment of 50 percent will be released after the plan is prepared by incorporating the priority interventions covering the nine themes in the form of low cost/no cost activities to be carried out and started its implementation after approval by the gram sabha and its uploading in the designated web portal.

H. The list of village panchayats the PI has identified to work with are as follows.

#### 1. Maharjpuram

I. The main strategy to achieve the set goals is an inclusive approach - involving all the stakeholders. This could be done by creating specialized new GP development corps involving students. Further the academic institution can aim to involve existing youth clubs, SHGs, local NGOs and other social capitals and CBOs.

#### Term and Termination:

The term of this MoU shall be for a period of five years from the date of execution, unless terminated earlier by a written notice of thirty (30) days by a Party seeking such termination to the other Party hereto. However, all commitments and obligations till date of termination will be honoured by both the parties.

## Eco-system

Training platforms and industry, which for long have been operating in separate domains, are rapidly inching closer to each other to create synergies. The constantly changing training paradigms, in response to growing complexity of the business environment today have necessitated these two to come closer. Training platforms not only contribute skilled human resources to business, but also in various intangible ways. The intersecting needs and mutually interdependent relationship require identifying means of further strengthening Pre-Job training-industry partnerships.

**5. Validity of this MOU**

This MOU shall be valid for a period of 3 years initially from the date of signing, after which it can be renewed by mutual agreement between the parties. Either party during its currency can also terminate this MOU by giving a notice of one month on the other. On termination, each party shall return to the other party all such documents and reference material as may have been borrowed for the purpose of fulfilling the work under this MOU. This MOU shall also stand terminated if a court of competent jurisdiction declares either of the parties as insolvent. Any termination as per this clause shall not affect the antecedent liabilities of the parties prior to the termination including completion of all assignments that have been agreed prior to such termination.

**6. Confidentiality:**

In the course of fulfilling the mutual responsibilities under this MOU, there will be a sharing of information of confidential nature. Both parties hereby agree to maintain such information relating to methods, trade secrets, products, services, processes, techniques and other proprietary information in strict confidence and not divulge these to any third party without the express consent of the other party except as may be necessary in the course of fulfilling mutual responsibilities in this MOU. This clause of confidentiality shall extend to the parties employees and associate / Subsidiary Companies / Concerns.

The parties each agree to refrain from distributing, disclosing or disseminating the Confidential Information of the other party and its affiliated entities which is disclosed to it and its affiliated entities in any manner to any person or entity except to the Recipient's employees, consultants and agents who have a need to know and who are obligated in a manner consistent with this MOU to maintain the confidentiality of such information.

Each party's obligation to maintain the confidentiality of the Confidential Information of the other party shall expire two (2) years after the date of disclosure or 12 months after expiry or termination of this MOU whichever is earlier. All drawings and other documents, any copies thereof, or things or samples which embody the Confidential Information of a party shall remain the property of that party and will be promptly destroyed, upon that party's request. The parties each agree that the Recipient of Confidential Information shall not remove any copyright, confidential, proprietary rights or intellectual property notices attached to or included in any Confidential Information furnished by the other. The Recipient shall reproduce all such notices on any copies.

The restrictions and confidentiality obligations set forth in this MOU shall not apply to the Discloser's Confidential Information which:

- a. is disclosed upon the advance written authorization of the Discloser;
- b. is lawfully disclosed to the Recipient by a third party without any confidentiality obligation; or
- c. is clearly demonstrable that same was lawfully known or independently developed by the Recipient prior to such disclosure.

Neither party shall use the Confidential Information of the other for any purpose other than to carry out the purpose of this MOU.

## About AMT MotoCorp:

One of India's biggest struggles is creating jobs for its large young population.

Instead of creating technical training to hundreds of millions of job-hunters (the present situation in INDIA), we Ashman desire to generate opportunity for learning, designing, calibrating and testing initially at the academic stage.

Students are the building blocks of any Country. We believe that goals of a student cannot be met effectively unless the students are given the appropriate channels to accomplish them. So it is essential to extract, polish, make use & promote new Ideas of young aspirants of WORLD.

We Ashman will craft the world, where knowledge and wisdom in engineering domain will lead to imagination and innovation through organizing various International & National Competition named, Indo Asian Solar Challenge (IASC) & E-Bike Racing Challenge (EBRC).

Ashman is the initiation which not only sticks to a particular field but tries to navigate in the direction of development of practicality in students as well as in the country. To ensure that, we organize workshops and school events, this indeed acts as SKILL INDIA program.

### What is E-Bike Racing challenge (EBRC)?

This competition is an eco friendly venture based upon Engineering design and manufacturing of Electric bike completely by the students. The main aim of the event is to generate the interest of the student in the field of eco-bikes and to bring a new revolution in the field of biking which can be commercialized as a usable product for the future generation. Beside the comprehensive knowledge of manufacturing and fabricating a single seated DC motor driven vehicle to manoeuvre on all types of terrains the E-bike Racing Challenge has a chance for participants to win cash prize up to 2.10 lakhs.

## NIT-J techies' car wins Indo-Asian solar challenge

JAMSHEDPUR: A solar car developed by techies at the National Institute of Technology, Jamshedpur (NIT-J), has won the 2016 Indo-Asian Solar Challenge held at Lovely Professional University Jalandhar, after completing 62 laps of 126 km each, with a maximum speed of 40 kmph.

The prototype car, developed by the 25-member 'RAJS' team, was declared the winner of the championship, with over 252 teams participating in the competition, held from April 4-8. "The idea of the competition was to make solar vehicles commercially viable and usable in the

transport sector. With depleting reserves of fossil fuels we need to shift to renewable and alternate sources of energy. Solar energy is abundant and can be the answer to this riddle while also protecting the ecology," said Jitendra Kumar, team vice-captain.

The car is a three-wheel delta structured vehicle, with a hub motor in its rear wheel, which eliminates the transmission system. It has a lithium-ion rechargeable battery which reduces its weight to 123 kg (without the driver), which made it the second lightest car in the competition.

"What is unique about our solar car is its innovation - the water sprinkler method - which automatically sprinkles water

over the solar panel whenever the solar panel gets heated to over than 70 degrees Celsius. This cools down the solar panel, which is crucial because an increase in each degree beyond 70 degrees decreases the efficiency of the solar panel by 0.5 %," Aditya Kumar, the team captain, told HT.

"Other features which were appreciated were the seat belt sensor - which compels the driver to wear the seat belt for each lap - and the buzzer sensor - whereby a buzzer starts ringing whenever there is a short circuit," Shubham Joshi, another team member said.

The team's accolades come soon after another team of techies won an international aircraft design competition in Texas, US.

# Memorandum of Understanding (MOU)

Between

**AMT MotoCorp and Annai Vailankanni College of Engineering  
(AVCE)**

AMT MotoCorp is an Educational Society which organizes events, workshops and seminars.

## Objective of MOU

- To organize the Dynamic race of E-Bike racing challenge organized by AMT MotoCorp, Madhya Pradesh.

**Date:** 4<sup>th</sup> to 7<sup>th</sup> Jan 2019

## Benefits given by AMT MotoCorp:

- For any institution the most important part is to deliver high class education, practical approach and to produce a high ability student who can well fit in corporate life. Through this Event the Students of AICT College would be able to learn On-site Engineering & concept of how to organize and manage a huge event by participating in it as a Coordinator.

This society would be very beneficial for AU, ME, CE, EE, CSE, CM and MBA Students. They can be a part of society even after completion of event for a year or more.

### INTRODUCTION

#### GAMBELLA UNIVERSITY, ETHIOPIA

Gambella University is situated in Gambella People National Regional State (GPNRS), is one of the recently established higher education institutions in Ethiopia. Its cornerstone was laid by Federal Democratic Republic of Ethiopia (FDRE) Prime Minister Hailemariam Desalegn and GPNRS president Gatluak Tut on 28th April, 2014. Gambella University is located at Gambella town, the capital of GPNRS which is 766 km far from Addis Ababa. At the beginning the institution was established as Gambella Agricultural, Technical, Vocational and Educational Training (GATVET) College which was organized and managed by the former Ministry of Agriculture and Rural Development and GPNRS and Bureau of Agriculture and Rural Development from 2002 to 2012 to produce middle level Agricultural Developmental Agents. During ten years (2002-2012) more than 1,950 students were graduated on Animal Science,
