E-Bike Racing Challenge • Ashman Motors & Technology

Think Green Ride a Bike

About AMT MotoCorp:

One of India's biggest struggles is creating jobs for its large young population.

Instead of creating technical training to hundreds of millions of job-hunters (the present situation in INDIA), we Ashman desire to generate opportunity for learning, designing, calibrating and testing initially at the academic stage.

Students are the building blocks of any Country. We believe that goals of a student cannot be met effectively unless the students are given the appropriate channels to accomplish them. So it is essential to extract, polish, make use & promote new Ideas of young aspirants of WORLD.

We Ashman will craft the world, where knowledge and wisdom in engineering domain will lead to imagination and innovation through organizing various International & National Competition named, Indo Asian Solar Challenge (IASC) & E-Bike Racing Challenge (EBRC).

Ashman is the initiation which not only sticks to a particular field but tries to navigate in the direction of development of practicality in students as well as in the country. To ensure that, we organize workshops and school events, this indeed acts as SKILL INDIA program.

What is E-Bike Racing challenge (EBRC)?

This competition is an eco friendly venture based upon Engineering design and manufacturing of Electric bike completely by the students. The main aim of the event is to generate the interest of the student in the field of eco-bikes and to bring a new revolution in the field of biking which can be commercialized as a usable product for the future generation. Beside the comprehensive knowledge of manufacturing and fabricating a single seated DC motor driven vehicle to manoeuvre on all types of terrains the E-bike Racing Challenge has a chance for participants to win cash prize up to 2.10 lakhs.

Few more details about the events are featured below

E-Bike Racing Challenge

NIT-J techies' car wins Indo-Asian solar challenge

JAMSHEDPUR: A solar car developed by techies at the National Institute of Technology, Jamshedpur (NIT-J), has won the 2016 Indo-Asian Solar Challenge held at Lovely Professional University, Jalandhar, after completing 62 laps of 1.26 km each, with a maximum speed of 40 kmph.

The prototype car, developed by the 25-member 'RAYS' team, was declared the winner of the championship, with over 252 teams participating in the competition, held from April 4-8.

"The idea of the competition was to make solar vehicles commercially viable and usable in the

transport sector. With depleting reserves of fossil fuels, we need to shift to renewable and alternate sources of energy. Solar energy is abundant and can be the answer to this riddle while also protecting the ecology," said Jitendra Kumar, team vice-captain.

The car is a three-wheel delta structured vehicle, with a hub motor in its rear wheel, which eliminates the transmission system. It has a lithium-ion rechargeable battery which reduces its weight to 123 kg (without the driver), which made it the second lightest car in the competition.

"What is unique about our solar car is its innovation – the water sprinkler method – which automatically sprinkles water

over the solar panel whenever the solar panel gets heated to over than 70 degrees Celsius. This cools down the solar panel, which is crucial because an increase in each degree beyond 70 degrees decreases the efficiency of the solar panel by 0.5 %," Aditya Kumar, the team captain, told HT.

"Other features which were appreciated were the seat belt sensor — which compels the driver to wear the seat belt for each ride - and the smoke sensor — whereby a buzzer starts ringing whenever there is a short-circuit," Shubham Joshi, another team member said.

The team's accolades come soon after another team of techies won an international aircraft designing competition in Texas, US.

Memorandum of Understanding (MOU)

Between

AMT MotoCorp and Annai Vailankanni College of Engineering (AVCE)

AMT MotoCorp is an Educational Society which organizes events, workshops and seminars.

Objective of MOU

- To organize the Dynamic race of E-Bike racing challenge organized by AMT MotoCorp, Madhya Pradesh.

Date: 4th to 7th Jan 2019

Benefits given by AMT MotoCorp:

- For any institution the most important part is to deliver high class education, practical approach and to produce a high ability student who can well fit in corporate life. Through this Event the Students of AICT College would be able to learn On-site Engineering & concept of how to organize and manage a huge event by participating in it as a Coordinator.

  This society would be very beneficial for AU, ME, CE, EE, CSE, CM and MBA Students. They can be a part of society even after completion of event for a year or more.
