Respected Sir:

Subject- Seeking permission for industrial visit.

I am R.V. Rabisha representative of Final Year ECE of our reputed college. My Roll No is 19REG15. I'm writing this letter on behalf of students of ECE Department in order to seek your permission for an industrial visit to Kochi. The visit would be done on 23-09-2022 to 24-09-2022. This visit might help the students in attaining good knowledge in desired field making it easy for them to understand the practical working of machinery. I ensure all students will definitely maintain the decorum at the place. I eagerly await your positive response as I have to

inform all the students about the
Same.

Date: 20-09-2022

Place: Pottalkulam.

Yours faithfully
R.V. Rabiha
(representative of final
Year ECE Department)

Feedback of Our industrial visit

An Industrial visit to Kanna Devan Hills Plantation Company P.v.t Ltd., Munnar was Organised by our Department of ECE on 23rd of September. Twenty five of electronics students and ^{two faculties} visited to the tea factory. In this visit all the students were very eagerly waited for listening to industrial higher authorities. We visited the factory at the end of morning time with present mood after visiting the garden. We are divided as 3 batches to visit the tea factor. One of the batch went to the guiding session and the other batches went to saw the process of making tea powder. We visualize the process and sensed the original making of the tea. By finishing

PRINCIPAL

Session, our batch went to visit the tea museum by the same time one of our batches went to the processing area. And then by visiting those places in munnar.

We released munnar.

Feedback of Our industrial Visit

Our industrial visit was half for two days. We started travel on 23rd at 9.00 pm, after a playful hours we reached the enriched place. Then by the morning of suffocated chillness finishing our breakfast we went to garden. By seeing those present and colourful varieties of plants and flowers. and then we went kannan devan tea museum and learned those history following that we went to ^{tea} factory and learned those process of making tea powder which belong to kannan devan hills plantation company P.v.t. Ltd., munnar, while seeing those process the in clear. Then we saw the tea plantation and visiting some other place in munnar we releaved from munnar.

Event/visit : Goa.

Event Date : 17/10/2022

From this industrial visit I understood the end to end services offered by Goa shipyard Ltd. The company designs and builds and repairs range of ships, offshore supply vessels, dredgers, tugs and simulators. GISL serves clients world wide. The visit was arranged and guided by a faculty member Ms. J. Remila and an operating manager from Operations Specialization.

I learned the manufacture, production and operation process of ship vessels.

Date : 12-10-2022.....

This is to certify that the below mentioned students are studying in 4th year in the dept. of Computer Science and Engineering in our college. They are very much interested to visit All India Radio, Kodaikanal to gain the knowledge about Radio Communication. So, I kindly request you to permit the students to visit your Radio broadcaster for the development of their co-curricular activities.

I assure you that our students will abide to the protocols of your Broadcaster.

Thank you.

Organized by: Department of Civil Engineering

Event Name: Exposure and field visit for Problem Identification (Industrial visit)

Venue: ANNAI CONCRETE SOLUTION (RMC PLANT).

Date: 3 November 2022

The Department of Civil Engineering conducted a field visit in accordance with the IIC Calendar activities for the academic year 2022-23.

OBJECTIVE OF THE PROGRAM:

To motivate the students to visit the industry in order to get an exposure about its overall functioning and to nurture their innovative talents to think for solution to the real-life problems faced during this Field / Industrial visit.

BRIEF DESCRIPTION OF THE PROGRAM:

30 students have undergone Field / Industrial visit at **Annai Constructions** located in Tirunelveli, Tamil Nadu and providing Commercial Constructions, Residential Constructions, Civil Constructions Services to the clients. Students are exposed to various units and the overall functioning of the plant. During the visit, students interacted with the industry people and the brainstorming sessions helpful for them to imagine and think innovatively to create solutions for real time problems.

An IIC Calendar Driven Activity named “Exposure and Field Visit for Problem Identification” was conducted by visiting Annai Concrete Solutions (RMC Plant). The department of Civil Engineering in AVCE College organized a one day Industrial visit to ANNAI CONCRETE SOLUTION (RMC PLANT) on 3-11-2023 for B.E Civil engineering students along with the staff members of AVCE to understand the problems faced by the ready mix concrete industries.

KANYAKUMARI DIST.

The industrial visit has given a very good exposure to all the students with regard to mixing and making of ready mix concrete, which is an essential requirement of construction of structures at the site.

Ready Mix Concrete is continuously growing industry in India. This industry is exposed to risks during preparation, transportation and utilization of RMC. It is important to address these risks, so that industry shall gain confidence of the customers, and shall have expected profit margins. Some negative impacts are caused during preparation, transportation and utilization of RMC plants in India. Unless the risks are addressed properly, the RMC industry in India shall not gain confidence of customers and will also cause reduction in profit margins. The risk causes can be categorized into internal risk causes and external risks causes. Thus, the risks related to RMC plants can be classified as internal as well as external risks. Internal risks and External risks cannot be avoided completely; yet, suitable strategies can definitely be adopted to manage these risks. Once risks are identified, mitigation measures can be adopted to treat the risks related issues. This shall help in achieving the objectives of RMC business in terms of production and supply cost.

The students discussed the problems that ready mix concrete industries are facing and how to achieve their overall growth. Very often highly stringent pollution norms are insisted upon Ready Mix Concrete plants by certain municipal authorities, in many cases more than construction sites itself. However, it needs to be considered that the use of Ready Mix Concrete reduces traffic congestion and dust pollution created within randomly within many urban locations due to random plying of construction materials across the city. As a result, it would be beneficial for the city environment to provide SOPs and easier permissions to environmentally certified Ready Mix Concrete plants within planned zones of the city. The users of Ready Mix Concrete should also insist on using concrete from environmentally conscious, QCI certified plants with superior quality management systems. Such steps would strengthen the organized sector within the Ready Mix Concrete industry in serving the construction scenario in achieving the overall growth objectives of the country. Standardization bodies and government institutions are increasingly mandating the use of concrete from only certified plants and companies. The activity helped the students to understand the problems faced by ready mix concrete industry and how to strongly support them for the overall development of safe and sustainable construction.

One Day Workshop on "ANSYS - Mechanical
Workbench" conducted on
30/03/2022

Department of Mechanical Engineering

Report on One Day Workshop on "ANSYS - Mechanical Workbench"

conducted on 30/03/2022

On March 30, 2022, the department of Mechanical Engineering, in collaboration with the CAD Desk at Nagercoil, hosted a one-day workshop on ANSYS Mechanical Workbench.

This workshop's main goal is to introduce the following learning thought process:

- i) The difficulties of simulating the 3D printing process,
- ii) Using a layered approach, Consider the following information: Additive Manufacturing Construction Guidelines, Weak coupling in thermal structural analysis.
- iii) Using the Additive Wizard to create a 3D print process simulation.

The resource persons for the one-day workshop were Mr. Francis Rejinath, Mr. Jebastalin, and Mr. M. Vinish from CAD DESK, Nagercoil. Mr. J. Prabhu, assistant professor of mechanical engineering, organized the event, and Dr. J. Sunil, Vice-Principal and HoD Mechanical, hosted the meeting. Dr. A. Benham, Principal, delivered the presidential address and encouraged students to participate in numerous workshops to expand their knowledge. Mr. Yuvaraj, a third-year Mechanical Engineering student, gave the welcome address, and Mr. Prabhu, assistant professor, gave the vote of thanks.

Students in their third and second years of mechanical engineering registered for the event, and approximately 60 students attended the workshop.

Department of Mechanical Engineering

Report on One Day Workshop on " Welding and Piping Inspection Techniques " conducted on 24/03/2022

On March 24, 2022, the department of Mechanical Engineering, in collaboration with IMAYA International Institute of NDT at Tirunelveli, hosted a one-day workshop on Welding and Piping Inspection Techniques. This workshop's main goal is to introduce the following learning thought process:

- i. Visual Testing
- ii. Penetrant Testing
- iii. Magnetic Particle Testing
- iv. Radiography Testing
- v. Ultrasonic Testing
- vi. Eddy current Testing

Imaya International Institute provides a variety of NDT services and courses. Radiography Testing, Ultrasonic Testing, Liquid Penetrant Testing, Magnetic Particle Testing, Visual Testing, Radiography Film Interpretation, Eddy Current Testing, and other advanced testing methods are examples of NDT Services. NDT courses are tailored to the training needs of workshop participants.

The experts Er. M. Muthuraj, Er. S. Arun Kumar, Er. Vinoth and Er. George Francis, IMAYA International Institute of NDT, Tirunelveli, explained the course's benefits, which include providing Non-Destructive Testing Services to a wide range of industries such as manufacturing, nuclear, oil and gas exploration, petroleum refineries, structure fabrication, power, construction, marine, processing, heat treatment, and automobiles.

The IMAYA International Institute of NDT in Tirunelveli provided the resource persons for the one-day workshop. The event was planned by Mr. J. Prabhu, an assistant professor of mechanical engineering, and was hosted by Dr. J. Sunil, vice principal and head of mechanical. The principal, Dr. A. Benham, gave the presidential address and urged

the audience should enroll to as many workshops as possible to broaden their education. The welcome remarks were made by third-year Mechanical Engineering student Mr. Yuvaraj, and the vote of gratitude was given by assistant professor Mr. Prabhu.

Students in their third and final years of mechanical engineering registered for the event, and approximately 60 participated.

**RESOURCE PERSON: MR. SRIRAM NAGARAJAN, CO-FOUNDER & CEO
ROBORAM**

The department of Electronics and Communication Engineering and Mechanical Engineering jointly conducted a seminar on "SEMINAR ON 6 WAYS YOU CAN UPSKILL YOUR CAREER IN ROBOTICS" on 20th February 2023 at Bosch Lab. Mr. Sriram Nagarajan , Co-Founder and CEO of ROBORAM is the resource person .

The seminar started with welcome address. The principal Dr. Abilash delivered the Presidential Address and insisted the applications of Robotics in industries. The Resource person Mr. Sriram Nagarajan in his presentation explained about the different ways in which the students can upskill their career in Robotics.

- How to design, analyze and test transforming robots, autonomous vehicles and other complex electro-mechanical systems
- How to control robotic systems using modern microprocessor technology.
- Fundamental challenges in understanding and managing the complexity of man-made and natural systems
- Theoretical developments in complex systems analysis, modelling, control and computational intelligence

The head of the departments of ECE and Mechanical Engineering , faculty members of various departments and 46 students from the ECE and Mechanical Engineering have attended this seminar.

One Day workshop on NON DESTRUCTIVE TESTING

In Association with

IMAYA International Institute of NDT

(Inspection Service Training & Certification)

Head Office – Chennai / Branch - Tirunelveli & Ambasamudram

Participants: Students from Mechanical, EEE & Civil Engineering departments

Registration fee: Free

Venue: Bosch Lab

The Department of Mechanical Engineering, Anna Vailankanni College of Engineering, AVK Nagar, Pottalkulam, Kanyakumari District organized an One Day workshop on ‘Non Destructive Testing’ in association with IMAYA International Institute of NDT, Tirunelveli on October 10, 2021. Dr.J.Sunil, Dean (Research) & HOD/Mechanical delivered the welcome address. Dr.A.Benham, Principal delivered the presidential address and suggested that each individual should have a great knowledge, observation and inference on each method. He also informed that NDT has levels of Certification like Level -1 for Diploma holders, Level -2 for B.E/B.TECH students and Level-3 for Engineers with Level-II certification and a year of Experience.

The entire workshop focused on giving hands-on experience to the Mechanical, EEE & Civil Engineering department students on NDT.

Er.M.Muthuraj, Chief Educator, Er. S. Arun Kumar, Er.Vinoth & Er. George

Francis, IMAYA International Institute of NDT, Tirunelveli conducted the handson sessions to the students. Also, this NDT workshop encompassed all the NDT methods with respect to American and British standards so as to get International Job Opportunities. 75 students from Mechanical, EEE and Civil Engineering departments were participated in this workshop. Mr. J. Jayakumar, Head. of EEE & ECE Departments, delivered the vote of thanks. The coordinator, Lt.C. Jegathesan made all the arrangements for the successful conduct of the workshop.

A webinar on 'Bridging Education & Employment'

Date & Time: 29.07.2021 & 7-8 pm

Objective

There are lots of career pathways you can take to become a successful engineer, and there are multiple fields you can work in. Those pathways don't have to be linear, making it possible to direct your career in the direction you want it to go.

This webinar will guide you to Become a Successful Engineer!

Course Duration: 60 Minutes

International Resource Person: Er.V.M.S.Nihath Khan, Tata Consultancy Services, United Kingdom

Course Contents

- How to Define Your Goals?
- How to Commit Yourself to Continuous Professional Development?
- How to Constantly Work on Improving Your Problem-Solving Skills?
- How to Work on Improving Soft Skills?
- How to Focus on the Details?
- How to Learn from Mistakes?
- How to Embrace Change?

The department of Mechanical Engineering organized a webinar on 'Bridging Education & Employment' on 29.07.2021. Dr.J.Sunil, Dean (Research) & HOD/Mechanical delivered the welcome address. Dr.A.Benham, Principal delivered the presidential address and gave some tips for becoming a successful Engineer. Er.V.M.S.Nihath Khan, Tata Consultancy Services, United Kingdom delineated the pathway of success in different engineering fields. About 75 students were

participated in this webinar. Finally, Mr.J. Jaya Kumar, Head, Electrical and Electronics Engineering Department delivered the vote of thanks.
The coordinator made all the arrangements for the successful conduct of the webinar.

REC Nihath khan is presenting

Analytics Skills

The analytical thinking process
 The process of applying your analytical skills usually involves several steps, including:

1. Identifying a topic, problem or issue
2. Gathering information through testing and observation
3. Developing solutions or deepening your understanding of the topic
4. Testing solutions or new ideas based on what you've learned
5. Post-analysis, or reviewing what solutions worked, to assess and apply your new knowledge

Why are analytical skills important?
 Analytical skills are important because they allow you to find solutions to common problems and make informed decisions about which action to take next.
